## Test of Strength

Even the hardest-bitten union official must concede that Harry Truman's threat to take away patronage fights from Democrats who deserted him on repeal of the Taft-Hartley act was strong talk. They can't say Mr. Truman didn't go all the way down the line for them.

Mr. Truman went into this test of strength without the votes he needed. In the showdown, some Democratic congressmen are less afraid of him than of their constituents. Mr. Truman has lost prestige. In a parliamentary government, like Britain, he would be facing a vote of confidence.

Congress is going to repeal the Taft-Hartley act in name but not in principle. It is not going to substitute the Wagner act, as it was urged to do last Friday by Representative Marcantonio of New York, hewing the Communist line. It isn't going to substitute the Lesinski bill, which is what the union bosses want. It is going to stick by the principle of the Taft-Hartley act, though repealing that law in name.

The principle is that labor unions in the United States shall be subject to the same equity which regulates other American minorities.

This is hateful to union executives, who claim they alone should have such unusual privileges as those they abused under the Wagner act. While the issue has been said to lie between the unions and management, it really lies between the working people of the United States and their government. If it refused to protect them against the highhanded tactics of union officials—if it refuses to grant them the same equity in their circumstances that is granted to other citizens—they will have lost a momentous battle for human rights.

For political purposes, Mr. Truman has lined up with the people who want members of labor unions to be the losers in this battle. This includes, somewhat curiously, the Communist party. Political expediency makes strange bedfellows.

Even more curiously it includes, as working allies, a number of Democrats who do not believe in what they're doing—but are willing to barge ahead and do it anyway because that's what they've been told to do. This is the kind of reasoning that made the reichstag in Germany holler a unanimous "ja!" to please Adolf Hitler a few years ago. But the comparison is premature. There is no evidence that a majority of members of the United States congress intend to holler "ja!" to please anybody.

## Which Comes First?

When spokesmen for railroads argue against the proposed conveyor belt system from Lorain to East Liverpool, they claim it would injure their interests. Perhaps it would, though the extent of the damage is debatable.

But the question for Ohioans does not turn on what the conveyor system would or wouldn't do to railroads. It turns on what the system would do for Ohio. And viewed that way, two things about the proposed system come into clear focus:

1. It is backed by private capital. It won't be built unless it can be sold on its merits. No public funds will be involved.

2. It is designed to maintain Ohio's leadership in the steel industry. The industry wants to improve its competitive advantage. If it doesn't, Ohio stands to lose not only steel production but benefits that flow from steel production. If that happened, the railroads operating in this state would have more to worry about than competition from conveyor belt systems.

The secretary of the Mahoning Valley Industrial council, Kenneth M. Lloyd, made a statement to the house committee on commerce and transportation last Tuesday. He laid some cards on the table. "High freight rates on raw materials in the Youngstown district," he explained, "make it a high-cost area in which to produce steel. . . the belt line can make it a low-cost area. Surely this committee is interested in making Ohio the best state in the union in which to produce steel. This transition will help every business. . . most of all, it will help the railroads by stimulating the industrial areas they serve in Ohio."

Saving the railroads is fine. Railroads are indispensable. But saving railroads at the expense of keeping Ohio's vital steel industry from improving its competitive advantage could be the most expensive and the most shortsighted kind of salvation in the state's history.

## With Their Permission

May 1 is the principal national holiday in the Soviet union. And there are no objections to that. The date was selected 69 years ago by the Second Socialist International as a time for demonstrations of strength in the campaign of sociological warfare then getting started.

But with the permission of the citizens of this country who will make May 1 a day of hatred this year, as they have for many years past, some of us are going to put a better idea into effect. We are not going to carry any banners or chant any marching songs. We're not going to hate anybody or uphold anything, except this one fundamental proposition:

That on May 1, especially when it falls on Sunday, a citizen of the United States should spend his time in goggle-eyed admiration of nature and its wonders, without so much as a passing thought to the sociological, economic, political, geographic and ethnological warfare that has had all of us in hot water for so many years.

## How Do Things Look?

The Federal Reserve system's loan-easing decision is supposed to stimulate the risk-taking which keeps the profit-and-loss system going. It makes an additional \$1,000,000,000 of reserve system money available for loans to borrowers.

But borrowers have more to consider than the availability of loans. They must estimate their chances of

repaying the loans and the interest. They must feel that the chance of profit if they take a financial risk is substantially greater than the chance of loss.

They must have confidence in the enterprise they are gambling with and confidence in the government. They must know that all the cards are on the table—nothing up the sleeve. And they must feel that people have confidence in them, especially people who have influence in politics. Virtually no risks in the United States are worth taking unless the political omens are favorable; this is an era of politics.

If the Federal Reserve system's loan-easing decision had been accompanied by some apprehension-easing decisions in the White House, by members of the majority party in congress and by a dozen politically powerful labor union executives, no one would need to wonder what effect it would have. But standing alone, the decision doesn't dispel the misgivings that hit risk-takers with a thud after last election day.

## From The News Files

Forty Years Ago  
May 2, 1909

Prizes donated by the local merchants for the annual industrial picnic to be held at Meyers Lake park, Canton, are larger than ever this year and all factories will be asked to close on picnic day.

August Mann of Pittsburgh will succeed the late J. Q. Riddell as superintendent of the local plant of the American Steel & Wire Co. Chief Clerk W. E. Hill has been in temporary charge.

An action was instigated by a number of mothers who found their boys placing nickels and pennies in slot machines to have the machines removed and the chief of police has warned all business places to do so. R. C. Turner went to Cleveland Friday on business.

Mrs. C. E. Almen is visiting relatives in Pittsburgh. H. L. Baird spent the day on business in Rochester, Pa., and Pittsburgh.

Mrs. D. A. Taylor will entertain members of the missionary society of the Christian church at her home on E. High st. tomorrow.

W. H. Hathaway, a member of the Rochester police force was in town yesterday after being notified that his house on Jennings ave. had been struck by lightning.

J. R. Vernon spent Friday in Cleveland on business.

## Thirty Years Ago

May 2, 1919

Seventeen bombs addressed to men high in the nation were discovered on the New York postoffice today. The plot was discovered when it was found that the carefully sealed packages bore insufficient postage.

Mrs. A. H. Schropp and Mrs. William Dimhoff left this morning to attend a Sunday school convention in New Castle, Pa.

Japan stands ready when peace is restored in Siberia to cooperate with the Russians in the development of the country.

Mrs. C. L. Smith, Mrs. J. R. Bustard, Mrs. J. C. Bolger and Mrs. H. H. Sharp read papers at the Travers club meeting.

Howard Somerville had returned to his home here after being discharged at Camp Sherman.

Mr. and Mrs. M. C. Glass of Ellsworth ave. have received word that their son, Corporal A. T. Glass, has arrived at Newport News from overseas service.

W. L. Foster has resigned his position with the Salem China Co. and accepted one with the Goodyear Rubber Co. at Akron.

Mrs. E. D. Shive is spending the day in Youngstown.

Mrs. Spencer Jewell, Mrs. W. A. Leatherberry, Mrs. Louis Uebele, Mrs. D. M. Heacock and Miss Mattie Strawn of the Christian church attended the Ninth district conference of the Woman's Board of Missions institute at Alliance.

Plans were made for the observance of Mothers day, a program to precede the sermon to be given in the afternoon, when members of the Missionary society of the A. M. E. church met Tuesday at the home of Mrs. Stanley Mills on N. Howard st.

## Twenty Years Ago

May 2, 1929

Prizes at the N. C. W. C. party were awarded Mrs. J. T. Rossiter, John Kaley, Miss Ann McLaughlin and David McClockey, five hundred; Miss Leona Sweeney, Alex McLaughlin, Mrs. William Gallagher and Neil Strabley, euchre.

Frederick Cope has made a record on the cinder track at Mount Union college which he may find difficult to maintain. During his two years of collegiate competition he has never lost the two-mile event.

Cleveland beat Detroit 11-5 yesterday. With two weeks of the season gone, the Boston Braves remain the big surprise of baseball. Termed the worst-looking outfit in the big leagues, they are still in first place in the National loop.

Members of the Bunco club met at the home of Mrs. John Gunesch, Salem-Winona rd. Prize winners were Mrs. John Schmidt, Mrs. John Fronius and Mrs. Mary Buchfeller.

Mr. and Mrs. J. R. Stratton and Mrs. Deborah Patterson and two children left Sunday for Charleston, W. Va. to visit Mr. and Mrs. Walter Dew.

James Scullion spent Sunday at Ohio Wesleyan college.

Fred Reeves returned from St. Petersburg, Fla., where he spent the winter.

## The Stars Say

For Tuesday, May 3  
By GENEVIEVE KEMBLE

THE planetary aspects for this day make for distinct progress and expansion, particularly through a stroke of genius, a quick grasp of opportunities for promotion, and production. In professional or political as well as social life. The mind is versatile, keen for the main chance, and to make use of influential aid from higher-ups. While the indications are for advancement and fruition of ambitious plans, an error in judgment could thwart. Be alert to suspicious characters or dubious propositions.

## For the Birthday

Those whose birthday it is, have splendid auspices for advancement, increasing scope and opportunity, for ambitious plans, hopes and wishes, in business, professional, public or social life, with the mentality sharp, adaptable and ready with "the right answers" for success and happiness. Yet misplaced confidence, or a mistake in tactics or associations, could begot loss and failure.

A child born on this day while having a shrewd and alert mind with progressive ideas and desires could be tricked by misplaced confidence, trickery or intrigue.

## GUARDING YOUR HEALTH

## Inflamed Thyroid Gland Symptoms

By HERMAN N. BUNDESEN, M. D.  
THOUGH goiter is by far the most common disorder of the thyroid gland, it is not the only disease which can affect it.

This butterfly-shaped gland at the base of the throat is also subject to inflammation which, in many instances, may produce symptoms similar to those caused by toxic goiter. Since, however, these disorders will not respond to the treatment for goiter, it is always necessary that they be correctly diagnosed before they can be dealt with successfully.

## Root of Trouble

One of the conditions in which inflammation of the thyroid gland occurs is known as subacute thyroiditis. Here it seems possible that an infection with a virus may be at the root of the trouble. Symptoms include pain and tenderness in the thyroid gland, slight fever, and an increase in the sedimentation rate, which means that the blood cells settle out of the blood faster than normal.

There also may be symptoms like those in toxic goiter, rapid heart beat, nervousness, sweating, and loss of weight and strength. However, the basal metabolism rate is not raised above normal as it always is in toxic goiter.

Coon Dog Trials Are Held Sunday

With 238 entries, the fourth annual spring coon dog field trials, held yesterday at the Sexton Country club, was the largest ever held in the Salem area and the largest of the year in northeastern Ohio.

Entries were also registered from Pennsylvania, West Virginia and Indiana. The Salem Hunting club sponsored the event.

No final event was held because darkness settled at the end of the elimination heats. Due to the unexpected expanded entry list, 24 elimination heats were run and the dog owners voted to split the final purse.

The purse was increased to \$300 during the registration period. Between 300 and 400 spectators attended the trials, according to Don Cannon, club secretary and registrar.

Wilford Stratton was field marshal for the trials and Lon Borling, county game warden, was the auctioneer.

## Burkhart Opposes Gormley For Mayor Of Columbiana

COLUMBIANA, May 2 — With only one contest, two seeking the Republican nomination for mayor, the primary election in Columbiana will be devoid of excitement, and the judges and clerks of the four voting precincts will have an easy time counting the votes.

Polls will be open at the usual places from 7:30 a. m. to 7:30 p. m. Daylight Saving time.

In the only contest, Mayor K. T. Gormley is a candidate for nomination for his fourth consecutive term. He is opposed by a member of council, is his opponent. Prior to his present term, with several years intervening, Mr. Burkhart served a period of years as a councilman.

The Republican ticket is short a candidate for clerk and for one of the six council places. S. Richard Orr, present clerk, is the only Democratic municipal official. On the

basis of no contests, the Democratic candidates received their certificates of nomination some days ago.

Twenty-four members of the Brownie group of Girl Scouts and several guests were present at the meeting in the Methodist church Friday evening. Under the direction of their leader, Mrs. Royden Walker, the girls worked on Brownie notebooks. There will be another meeting at the same place next Friday evening.

Jerusalem Lutheran church Daughters of the King will hold their mother and daughter banquet at the church Wednesday evening at 6:30 the date having been changed from Tuesday.

The banquet will be in the form of a covered dinner. Miss Alta Mulch and Miss Ruth Henry will have charge of entertainment, which will include vocal solos by Miss Debra Smith of Leetonia. There will

be gifts for gold star mothers and the oldest and youngest mothers.

**Promoted To Supervisor**  
George Gleckler, son of Mr. and Mrs. M. S. Gleckler of Columbiana, with TWA for the last 30 months, has been promoted to reservation supervisor at Dayton. He was recently transferred from Kansas City, Mo.

Mr. and Mrs. Ray L. Moore of 3828 Blanche st., Pasadena, Calif., formerly of Columbiana, announce the approaching marriage of their daughter, Miss Mona Moore, and Gallard Morgenthaler, Jr., son of Mrs. G. R. Morgenthaler of Pasadena. The wedding will take place, Friday, June 10.

Mrs. R. S. Fullerton of Columbiana will serve her sister as matron of honor. The prospective bride is a graduate of Columbiana High school, and Mr. Morgenthaler attended Kern County Union High school in Bakersfield. During the war, he served as a first lieutenant in the Air Corps and was a prisoner for a year. He received several decorations during his 3½ years' service.

**Pythian Meeting**  
Follansbee, W. Va., degree team surprised the district meeting of Knights of Pythias, for which Columbiana lodge was host Thursday evening, by appearing here at the request of Ohio Grand Lodge officers to confer the pace rank for Columbiana lodge. More than 100 were in attendance, including visitors from Jefferson, Mahoning and Trumbull counties in addition to those from West Virginia.

Principal speaker was Orin Bright

## He's a Master in His Line

Columbus police thought they had a burglar-proof safe at headquarters until they watched Kenneth Scott of Hollywood, left, open the safe in five minutes. Scott, who claims to be a former film actor and writer, was arrested in connection with 11 safe-cracking jobs in Columbus, police said. Watching him at work are detectives Huston Roush, center, and Stacy Hall.

of Follansbee, grand outer guard of West Virginia Pythians, and imperial prince of the D. O. K. K. of West Virginia. Brief talks were also made by J. V. Belch of Wheeling, past grand chancellor, and E. A. Crow of Follansbee, district grand chancellor, of West Virginia; George Congaware of Warren, Trumbull county deputy, and O. H. Geiger of East Palestine, district deputy of Columbiana county.

Frank A. Woods of Youngstown, past grand chancellor, introduced the speakers. L. H. Detrow of Salem, district deputy, spoke for the district, and H. D. Kurtz, deputy for Columbiana lodge, spoke for the host lodge.

Besides Columbiana, all the other lodges of the district, Salem, Washingtonville, Lisbon, East Palestine and Rogers, were represented.

**'Saucer' Victim?**

COINCIDENT with its report that "flying saucers" seen in the skies in various parts of the U. S. "are not a joke," the Air Force reports three persons investigating them have been killed in aircraft accidents. Among them, Capt. Thomas F. Mantell (above), National Guard pilot who pursued a "flying saucer" type object to a high altitude, over Fort Knox, Ky., radioed it was "round like a tear drop" and flying fast. Mantell's body was later found in his wrecked aircraft. (International)

## CHILD WINNING BATTLE FOR LIFE

COLUMBUS, May 2 — (UP) — Little Janet Lee Armitage of Attica, O., today apparently was winning the second phase of her race with death.

A state highway patrol car raced time from Willard to Children's hospital here Saturday on a 100-mile errand of mercy to save the life of the 15-day-old girl.

Children's hospital spokesmen said the tiny patient, who suffered a collapsed lung, was in fair condition this morning. She was still in a miniature plastic-type oxygen tent that permits her to breathe normally.

The patrol cruiser, speeding against a rapidly-diminishing supply of oxygen, made the trip from Willard in one hour and 28 minutes. The father, Charles Armitage, 22-year-old shipping clerk, and N. R. Olds, volunteer fireman of Attica, accompanied Janet Lee on the wild ride. The patrol car was driven by Patrolman R. E. Dishong.

Armitage said he noticed his daughter "turning blue" Saturday morning and called Dr. R. C. Cahill. An examination revealed the collapsed lung and the child was

## Dorothy Haldi Is Bride Of J.C. Murphy In Church

A perfect May-day afternoon lent its inspiration to the wedding of Miss Dorothy Elise Haldi and J. Carter Murphy, which was solemnized at 4 p. m. Sunday in the First Presbyterian church by Rev. H. L. Ogden, who performed the double ring ceremony.

Miss Haldi is the only daughter of Mr. and Mrs. Charles R. Haldi of Franklin st.

Mr. Murphy is the son of Mr. and Mrs. J. P. Murphy of Fort Worth, Tex.

Miss Anna Cook, church organist, opened the musical prelude with "Echoes of Spring" and followed it with "Choral Fantasia," "Melody from Finlandia" and "Andante Cantabile." She accompanied Miss Martha Jayne Stirling, who sang "At Rainbow's End" and "Through The Years."

Seven-branch candelabra held the tall white candles which lighted an embankment of palms and ferns at the chancel entrance. Two large bouquets of white snapdragons emphasized a green and white theme in the beautiful setting.

As the strains of "The Bridal Chorus" from Lohengrin were heard, the bridal procession started down the aisle.

**Wears Taffeta Gown**

The charming bride approached the altar on the arm of her father. Her distinctive gown of white taffeta was styled in simple long lines with a lustrous back continuing to form a graceful train. The neck was fashioned with a turn back collar and covered buttons accentuated the long lines on the fitted bodice. Her finger-tip veil of imported illusion fell from a small white bonnet headpiece. She carried a cascade bouquet of stephanotis and maidenhair fern, tied with maline.

Mrs. Richard S. Schiefelbein of Evanston, Ill., the matron of honor, appeared in an unusual gown created of spring green faille, fashioned with a portrait neckline, outlined with a bertha, and a full skirt caught into the bustle at the back, to match the bride's dress. Her matching hat was also similar to that of the bride's with shoulder length veil attached to a small bonnet. Her bouquet was of tallman roses tied with matching ribbon.

The bridesmaids, Mrs. Perry W. Lewis of Crawfordsville, Ind., and Miss Carolyn Butcher of the Leeton rd., wore gowns and hats identical to the matron of honor. Their bouquets were a spring flower combination of yellow daisies and lavender sweet peas.

Mrs. Schiefelbein, before her recent marriage, was Gene Constance McArthur, formerly of Salem. Mrs. Lewis was the bride's roommate at Denison university. Miss Butcher, cousin of the bride, is a student at Heidelberg college, Tiffin.

Charming little Lois Ann Weirick was flower girl, and her gown of the same material as the other attendants was designed like theirs. She wore a matching headpiece. The bride and all her attendants wore mitts to go with their gowns.

Harry P. Davis, an instructor on the faculty of Beloit college, Beloit, Wis., was best man.

Robert Griffiths, student at Ohio State university, and William Crumrine, student at Kent State university, cousins of the bride, seated the guests, who filled the church.

Miss Haldi chose for her daughter's wedding a dusty rose crepe dress with black accessories. Her corsage was of Tallman roses and stephanotis. Mrs. Murphy used black accessories and wore a corsage of pink roses and stephanotis with a light blue crepe dress.

**300 At Reception**

The social hall, where 300 guests were entertained at a reception, was transformed into a veritable garden of multi-colored blossoms and flowers.

An all-white theme, carried out in sweet peas, schizanthus and tall tapers, predominated in the beautifully-appointed tables.

On the bridal table, there was a five-tiered wedding cake topped

## Couple Wed At Church Rectory

A double strand of pearls, the groom's gift, complemented the bridal costume worn by Miss Ruth Alma Baisley for her marriage to Nick Zamarrelli at 1:30 p. m. Saturday in St. Paul's Catholic rectory, Ohio ave. For the traditional something old, she wore her mother's opal ring.

With her lovely toast brown lace dress over taffeta, the bride used (cost brown and pink accessories. She wore a corsage of pink carnations.

A group of relatives witnessed the double ring ceremony performed by Rev. J. Richard Gaffney, pastor.

Mrs. John Detell, sister of the bride, matron of honor, appeared in an attractive lavender crepe dress and used dove grey accessories. Her corsage was of pansies. Andrew Zamarrelli of Columbus, brother of the groom, was best man.

Mrs. Baisley chose for her daughter's wedding a grey suit and wore a corsage of pink roses.

Mrs. Zamarrelli was in a navy outfit. Her corsage was of yellow roses.

A wedding dinner for the families was at the home of Mr. and Mrs. Anthony Petrucci, W. Pershing st. Flowers and white tapers in silver added beauty to the table. Mrs. Petrucci is a sister of the groom.

Some of the guests were from Columbus, Warren and Conneville, Pa.

Saturday evening the couple was honored at an open house reception in the Petrucci home. A tiered-wedding cake graced the refreshment table. Veri-colored flowers were also used in the decorations.

The bride is the daughter of Mr. and Mrs. Roy Baisley of N. Roosevelt ave. A graduate of Salem High school, she was a WAVE for two years during the war, stationed in Florida, Washington, D. C., and New York City.

Mr. Zamarrelli, son of Mrs. Lucy Zamarrelli, Rose ave., was in the medical corps three years during the war. A barber, he is employed at the Kenneweg shop.

After a southern trip, the couple will reside at 267 Ross ave.

For traveling the bride wore a grey suit and used green accessories.

**Catholic Daughters**

**Held Breakfast**

Thirty members of the Catholic Daughters of America attended the Communion breakfast at 8:30 a. m. Sunday in the Knotty Pine room of the Lape hotel.

Mrs. Earl Yeager, grand regent, presided.

The court will hold its next meeting May 12 in the K. of C. home, with a cordial dinner at 6:30. Officers will be named for the fiscal year.

Mr. and Mrs. Earl Yeager, Mr. and Mrs. Ernest Brudery and Mrs. Leo Hickey were in Wellsview Sunday afternoon to attend a "Breakfast in Hollywood" program sponsored by the Catholic Daughters of America there in the Beacon Memorial auditorium.

## Hospital Auxiliary Party Is Success

Salem City auxiliary project to furnish the west delivery room in the hospital received a big boost Friday evening when an approximate \$300 was netted from the card party sponsored by auxiliary members in the Masonic temple.

Miss Martha McCready and her committee made the arrangements for the affair which entertained 280 district people. The party proved a success due to the able assistance of Columbian and Lisbon members.

Appreciation is expressed by Mrs. Harold Zealley, president, and others in charge, for the helpful co-operation received.

Special prize awards went to Mrs. Glenn Broomall, Mrs. Harriett Stahl, Mrs. Ray Smith, Mrs. Troy Cope and Mrs. Walter Crawford.

Prizes in "500" were won by John B. Berchold and Miss Mildred Tate; auction bridge, Mrs. Ura Hopkins; gin rummy, Mrs. Simon and Mrs. Seventhall; Oklahoma, Arthur Brian; contract bridge, Miss Sue Deming and Miss Isabel Mullins.

**Goshen Harmony Club Is Entertained**

Goshen Harmony club members enjoyed the hospitality of Mrs. Raymond Weingart Thursday afternoon at her home on the Goshen rd.

Sixteen spent an informal social afternoon after which the hostess served lunch.

Mrs. Frank Weingart will entertain the club May 26 at her home on the Goshen rd.

Miss Freda Girsberger of Sebring was a dinner guest Sunday of Mr. and Mrs. H. C. Stratton, Buckeye ave. Miss Girsberger, who spent 25 years in China, was guest speaker at the First Friends church yesterday morning.

**Members of Octo Club Entertained**

Mrs. Leonard Jones was a guest when Mrs. John Orben, Jr. entertained associates of the Octo club Friday evening at her home in Youngstown.

Mrs. George Wilms and Mrs. Russell Jones shared "500" game honors, while bridge prizes were won by Mrs. Leonard Jones, Mrs. Martha Brugger and Mrs. Dale Rafferty.

Lunch was a concluding pleasure. The May 20 meeting will be at the home of Mrs. Brugger in Alliance.

**Class Has Dinner, Plans Program**

Mr. and Mrs. Clarence Townsend were in charge of arrangements for the dinner meeting of the Berean class of the First Friends church Saturday evening in the Raven restaurant at Alliance. Places were arranged for 30 guests.

Mrs. Raymond Rober, teacher, was presented a corsage of sweet peas. Gordon Allen was in charge of the business session. Plans were made for a Mother's day program Friday evening in the church.

**Home From Alaska, Feted At Dinner**

The home of Mr. and Mrs. Harry Elsner of Olive st. was the scene of a delightful family gathering Sunday.

The event honored Raymond Schuman, who returned today to Alaska, where he is stationed with the Air corps, after being home on furlough.

A buffet dinner was enjoyed. Relatives were from Pennsylvania, Youngstown, Alliance and Sebring.

Mrs. Frank Patterson and Mr. and Mrs. Perle Irwin of Cleveland called on friends here Sunday.

Mr. and Mrs. Stanley Howard of the Canfield rd. returned Sunday from a visit to Washington, D. C. and Baltimore, Md., where they spent three days with their aunt, Mrs. L. M. Howell and family. While there they attended the Maryland Hunt Cup races and toured the Everwood gardens.

## Present Program For Music Week

An appreciative audience greeted the musicians who had part in the National Music week concert Sunday afternoon in the Methodist church. It was well attended.

This delightful program was arranged by the Music Study club, which sponsors the celebration here. Mrs. Vesta King is chairman.

Mrs. Homer S. Taylor, president, gave the welcome.

The Salem Men's chorus topped the program with two groups of songs, directed by Mrs. George F. Jones.

Bill Schuller, Robert Dunn and Everett Crawford contributed a trumpet trio.

Others who had part on the program were:

Mrs. W. J. Hunston, Mrs. Fred Switzer, Jr., Carl Beecher, Galen Rich, Harold Sleeman, Mrs. Sterling Jackson, Donald Dusenberry, Mrs. Carl Beecher, Mrs. Eric Silver, Miss Eleanor Butts, Thomas E. Crothers and Homer S. Taylor.

Accompanists were Mrs. Walter Holmeister, Miss Dorothy Pozniko, Mrs. Steven O'Goran and Mr. Taylor.

Other events planned for the celebration are the Junior High school program, at 8:15 p. m. Tuesday and the Senior high program Thursday evening, both in the High school auditorium.

Band, orchestra and choir numbers will be included on the Junior High program.

The Salem High school band will give the Thursday program.

—

"We, The Women"

by RUTH MILLETT

Here's expression of a certain masculine attitude that I know most of my women readers have encountered.

"Most of our housewives are so wasteful of their time and energy that no modern industrial concern

in its right mind would want them on the payroll," sneers an industrial engineer in a recent magazine article gallantly titled: "Should Your Wife Be Fired?"

Well, Mr. Efficiency expert, the housewife may run around in unnecessary circles, wool-gather, and stop in the middle of one job to run to another, as you charge, but remember, please, that all the while she is doing her housework she is more, much more than a housekeeper.

If she's dusting when Johnny falls out of the apple tree or when Susie spills a glass of milk on the dining room rug she may not get back to her dusting for a while. But the circles she runs around in bandaging Johnny or trying to de-spot the rug aren't unnecessary circles. They're just a part of the day's routine.

And if she wool-gathers while she works, consider what she has on her mind—a family as well as a job. Maybe she has had a fight with her husband and is feeling pretty

low about that. Or, perhaps, she is trying to figure out how to handle some problem that has one of the children upset, or maybe her sturdy oak has confided things aren't going well at the office and, though she kept her chin up while she was encouraging him, she's plenty worried and scared herself.

Outside Demands Tax Homemaker Then there are all those outside demands on her time because she is "just a housewife" and nobody thinks her time is valuable.

The church wants her to bake cookies for a sale. The school wants her to get to a PTA meeting, and if she doesn't make it Johnny's classroom won't be 100 per cent. There's a peddler at the door and the telephone is ringing because someone wants to know if she has her radio turned on and what station is she listening to, please.

Remember, too, that the housewife is the family's filing system. Her mind is eternally cluttered up with such admonitions as "Don't forget to send my gray suit to the her husband and is feeling pretty

banking money to school tomorrow." "You'd better get someone out today to fix that leaky faucet," etc. The homemaker not only doesn't have a secretary to take details of her mind, she is expected to remember for the whole family.

And, even if she does happen to be a model of efficiency herself, the housewife can't force her family into co-operating with her to keep her home the easy-going, happy

kind of place she wants it to be. That, probably, is the biggest reason why the housewife's way of running a house is without factory-like efficiency and may seem positively scatter-brained to an efficiency expert. The one aim of a factory is production, getting the work done. The one aim of a home is to provide a place where a family can live and enjoy life in a relaxed, happy atmosphere.

A GOOD BET .. to get extra cash

# It is... SUPER-Enriched to serve YOU and YOUR FAMILY BETTER

FACTS YOU WANT TO KNOW...

**SUPER-Enriched with VITAMIN B1**

For normal appetite, good digestion, and healthy nerves.

**SUPER-Enriched with VITAMIN B2**

Important to children's growth, and for healthy eyes and skin.

**SUPER-Enriched with VITAMIN D**

Essential for proper assimilation of Calcium.

**SUPER-Enriched with CALCIUM**

Necessary for growth of sturdy bones and healthy teeth.

**SUPER-Enriched with NIACIN**

Essential to proper nutrition of the body cells.

**SUPER-Enriched with IRON**

For good red blood needed for good health.

WEBSTER'S DICTIONARY DEFINES "Super"—A prefix signifying: above, over; specifically: situated on or at the top of. That surpasses all or most others of its kind.

**Why SUPER-Enriched?**

In the early days of World War II it was learned that more than 3 out of every 10 men failed to pass physical fitness tests. That was shocking news. Investigations by Medical and Nutritional authorities soon revealed that this was due to certain Vitamin and Mineral deficiencies in the American diet.

Realizing the national scope of this problem, the foremost Government, Military, Authorities and the Millers and Bakeries of America early in 1941, met at this meeting it was decided that since bread was the most universally accepted food, it should be enriched with these important Vitamins and Minerals. Subsequently by authority of the President of the United States, in Food Order #1, it was ordered that Bread be enriched with Vitamin B1, Vitamin B2, Niacin and Iron. Minimum standards were established. Later the Nutritional Authorities recommended the addition of Vitamin D and Calcium to enriched bread.

Ever alert to promote the very best in Nutrition, Keystone Bakery has now added Vitamin D and Extra Calcium to its bread formula. Keystone Bread has always contained the highest quantities of Vitamin B1, Vitamin B2, Niacin and Iron ever recommended or directed. Therefore the term Super-Enriched means that Keystone Bread contains the highest Vitamin and Mineral enrichment of any bread you can buy.

Always know you're getting the best bread in the country.

## VERY IMPORTANT NEWS

**Cope In College Play**  
 James Cope of Salem is in the cast of the Mount Union college May day pageant to be presented at the college May 7.  
 The pageant, entitled "Mayhill, Ohio," tells the story of a May day celebration in a small Ohio town. The script was written by three college students. Cope plays the part of the mayor.

Cope is a junior at Mount Union and is active in the dramatics department on the campus. He appeared in the spring production, "The Constant Wife." He is a member of the Sigma Nu fraternity and Student Christian association. He is the son of Mr. and Mrs. J. J. Cope, R. D. 2, Salem.

**Builds Miniature House**  
 Joseph Bachman, senior in Salem High school, spent 100 hours of his leisure time in building the miniature 1850 model house now on exhibit in the public library. He modeled the house from a picture in a library book of that period.  
 The house even has curtains at the windows and a "cat" on the long porch.

Joseph, son of Mr. and Mrs. H. V. Bachman, is president of the Salem High French club; president of the school's Stamp and Coin club and treasurer of the Student council.

**Bartholomew Honored**  
 Dr. Paul C. Bartholomew, professor of political science at the University of Notre Dame and a former resident of Salem, has been named a member of the executive council of the Midwest Political Science Association.  
 Dr. Bartholomew was elected the council member at the recent convention of the association in Madison, Wis. The Midwest association is affiliated with the American Political Science Association.

**City Gets Car Tag Money**  
 City Auditor Karl Webber has re-

ceived a check to the city for \$7,769.50, constituting the first advance distribution by the state of motor vehicle registration fees.  
 Distribution to neighboring communities included: Columbiana \$2,922.75; Leetonia \$1,100.75; Hanoverton \$173.25; Washingtonville \$234.75 and Lisbon \$2,535.75.

**Rotary Program**  
 "What We Would Like to Have You Do For Us," a panel discussion by five Youngstown high school students, will be held at the Tuesday noon meeting of the Rotary club at the Memorial building.  
 Robert Conroy is in charge of the program.  
 The club is making plans to send members to the district conference May 20-21 in Canton.

**Pastor On Radio**  
 Rev. Harold L. Ogden, pastor of the Presbyterian church, will speak on the morning devotional service at 7:15 a. m. over station WKBN, Youngstown. The program, presented each morning till, week except Thursday, will center around the family, in keeping with Family Week.

**Women Bowlers To Meet**  
 The annual meeting of the Salem Women's Bowling association will be held at 7:30 p. m. Tuesday at the V. F. W. hall. Officers for the 1949-50 season will be elected and medals and prize money for the city tournament will be awarded.

**Movie For Lions Club**  
 A travel movie will be shown by Clyde Dickson at the Lions club meeting Tuesday evening at the Lape hotel. Next week the club will elect officers and choose state convention delegates.

**In Mayor's Court**  
 Joseph D. Jennings, 22, of R. D. 1, Salem, was fined \$15 and costs by Mayor R. R. Johnson this morning on a reckless operation charge. He was arrested at 2:15 a. m. Sunday on N. Ellsworth ave.

**Baptist Meeting**  
 Teachers and officers of the First Baptist Sunday school will meet at 7:30 tonight at the home of Mr. and Mrs. R. C. Exirling, Washington ave.

## Surprised Reds

The appearance of Angela Calomiris, above, 31-year-old Greenwich Village photographer, as a witness in the trial of 11 top U. S. Communists, caused consternation among the defendants. Serving as an undercover agent for the FBI, Miss Calomiris worked in the New York Communist Party for seven years gathering information which she passed on to FBI agents.

**Salem Students Honored**  
 Shirley A. Sarbin, Marjorie A. Reeves and Carl Ferreri of Salem are on the honor roll of students achieving high scholastic attainments in Ohio State university's college of arts and sciences during the winter quarter.

**Board To Meet Tuesday**  
 The official board of the Methodist church will meet at 7:30 p. m. Tuesday in the church.

**Start Safety Campaign**  
 AKRON, May 2 — The Summit county safety council today opened a drive to check 60,000 vehicles for safety. Free inspection service is offered at more than 300 garages, and police brake test lines have been set up.

**TREASURY REPORT**  
 Cash balance, \$4,673,659.257.

**BRING YOUR PRESCRIPTIONS TO PEOPLES**  
 A Registered Pharmacist Always In Charge.

**PEOPLES DRUG STORES**  
 340 E. State St., Salem, O.

## OBITUARY

**CAPT. VANCE RICHMOND**  
 LISBON, May 2—Capt. Vance L. Richmond, 63, retired army officer, died at 8:45 a. m. Sunday at his home at 809 N. Market st., having suffered a stroke Saturday morning.

Born in Meadville, Pa., April 13, 1886, he was the son of Hiram and Virginia Vance Richmond. He was a graduate of Meadville school, following which he toured Europe for two years, before attending St. John's academy at Manlius, N. Y. From there he entered Cornell university and graduated in 1909.

He studied in the Sorbonne university, Paris, for two years and, returning to this country, taught in Shattuck Military academy, Fairbault, Minn. He also taught at Culver Military academy, and took a post-graduate course at Harvard, receiving his master's degree.

He entered the army in 1917 and served with Co. H of the Seventh Infantry division and participated in six campaigns. He served with the army of occupation for two years. During World war II he taught in Florida Military academy.

He was a member of the Episcopal church, Meadville, the Army-Navy club of Washington, D. C., the American Legion of Lisbon, the Lisbon Kiwanis and Boosters clubs.

In 1938 he was married to Olga Osten in Ashville, N. C. She alone survives in the home.

Other survivors include a son, Hyle, of Syracuse, N. Y.

Funeral service will be held at 2 p. m. Wednesday at the Presbyterian church, in charge of Rev. Paul T. Gerrard, with full military honors at the Lisbon cemetery conducted by the American Legion.

The body will lie in state from noon Wednesday until the funeral hour. Friends may call at the Eells-Leggett funeral home Monday evening and Tuesday.

**EEZRA CATELL**  
 Ezra Cattell, 72, father of R. D. 1, Salem, was found dead Saturday afternoon in the barn at his home. Coroner David Belinky in his report indicated suicide by hanging. No reason was known for the act. His wife, Clara found him.

He was born Feb. 14, 1877 in Mahoning county, and had lived in this vicinity all his life.

Besides his wife he is survived by three daughters, Mrs. Cyrus Smith of Berlin Center, Mrs. Clara Pfiffer of Chicago and Mrs. Lou Bare of Topeka, Kan.; a son, Albert Cattell of California; five grand children and four great grandchildren. His first wife, Josie Renkenberger preceded him in death a number of years ago.

Funeral service will be held at 2 p. m. Tuesday at the Moosman-Vogt funeral home in Sebring in charge of Rev. J. I. Krohn, with burial in Berlin Center.

Friends may call at the funeral home this evening.

**MARKETS**  
**SALEM PRODUCE**  
 Wholesale Prices  
 Fancy eggs, 45-46c. doz.  
 Sassafras, 75c per doz. bunches  
 Chickens, heavies, 36c lb.

**GRAIN MARKET**  
 Oats, 75c bu.  
 Wheat, \$2 bu.  
 Radius of the earth from the center out to the surface is nearly 4000 miles, yet no one has seen more than five or ten miles of this distance.

## Apathy In Leetonia Election Apparent

LEETONIA, May 2—Little interest is shown here in the primary election, the only contests being on the council and board of public affairs on the Democratic ticket. The Republicans failed to place a ticket in the field. John Arnold (D) is unopposed for mayor as is John McCue, clerk, and Paul Sevensh, treasurer.

Council candidates include: Andrew Duko, L. E. Berk, Raymond Baker, present councilman, Francis Eskay, Samuel Beltempo, Carl Varian and John Lippert. There are six to elect.

There are four candidates for the Board of Public Affairs with three to elect: Clarence Barnes, J. S. Gibson, present members of the board; J. M. Anglenyer and Michael T. Leeson.

**CLEVELAND PRODUCE**  
 Eggs, U. S. consumer grade in cases (jobbing prices): Large AA white 62, Brown 57; large A white 56-58; brown 53-55; medium A white 51-53; brown 50-51.

Wholesale egg grades (prices paid FOB Cleveland market cases included): Extra 1 and 2 large (minimum 60 per cent A quality) white 49-52, brown 45-49 1/2; medium white 42-44; brown 41-42.

Live poultry prices (FOB Cleveland market): Fowl, colored and heavy types 37-39; fowl, Leghorn and light types 30-31; fryers and broilers heavy type 34-35, old roosters 22-23.

# McCulloch's ANNOUNCING

## THE OPENING OF OUR DRAPERY WORK ROOM

### The First Step In Our New Expansion Program

Draperies, Curtains, Bedspreads, etc., will now be made in our own work room, supervised by Mrs. Helen Lieder, who will be pleased to work with you regarding the making of your Draperies, Curtains, and Redecorating problems, . . . Estimated Costs Cheerfully Submitted.

IT'S A PLEASURE, YOURS AND OURS, TO BRING YOU THIS MOST WANTED SERVICE!  
 MAKE YOUR SELECTION HERE FROM THE COUNTRY'S LEADING MANUFACTURERS OF DECORATIVE FABRICS!

# Flashes Of Life

LOS ANGELES — (AP) — Their marriage was derailed by toy trains, says Film Actress Beverlee Mitchell. She won a divorce from William F. Crane yesterday testifying:

"He was so intent on his hobby he refused to kiss me for six of the 10 months of our married life or even take me out to a movie. Why, he even spent \$700 on electric trains when he had no money to pay the rent or the doctor."

Once, pouted Miss Mitchell, 23 and red-haired, she asked Crane, 28, to kiss her, he answered:

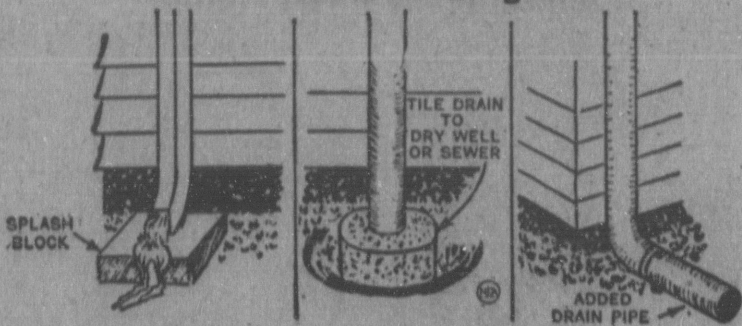

"Leave me alone. I want to play with my train."

ANGELS CAMP, Calif. — Mark Twain might envy the tall tales they still spin about the jumping frog of Calaveras county.

Twain, of course, spun the first one about the frog which was so loaded with buckshot by a hostile gambler that he lost the contest.

This week Dr. D. L. Abasio of Angels Camp announced — with tongue in cheek — he had chipped a frozen frog out of a Yosemite glacier.

## Gutters Need Looking Into

METHODS OF DISPOSING OF RAIN WATER

Spring is the time to check, clean and repair your roof drainage system. A thorough job will make gutters and downspouts last longer and keep them doing the job they're meant to do.

Start by cleaning out accumulated leaves and dirt with a whisk broom to prevent rusting and overflowing gutters. Clogged downspouts can be opened by removing the elbows

and would try to awaken him from a sleep of 1,200 years in time for the next contest May 12-14-15.

Last night the frog was "unfrozen" for photographers and was quite alive. The "glacier" was a press agent's dream—an ordinary block of ice.

with liquid asphalt paint, and the outer surfaces with house paint.

To repair a leaky gutter, remove the rust from both the inside and outside with coarse steel wool or a wire brush. Coat the inside with a thick film of plastic roof cement. Before the cement sets, cover it with strips of roofing felt paper or heavy aluminum foil and press down firmly. Where these strips meet, overlap them in the direction of water flow and cement their edges together.

When the bottom end of a downspout is not connected to a dry well or storm sewer, an added length of pipe or a splash block may be used to lead the water away from the house. This will protect the foundation and shrubbery and may eliminate a source of moisture inside the basement.

A clogged drain well will usually flood the ground above it, and excavation will be required to clear the obstruction.

# These prices feature "Extras" that aren't!

If you're price-conscious these days as you shop for new cars, you've probably made a big discovery.

It's important to find out what the price includes — particularly in the normal "spread" between list and delivered prices.

Take these Buick prices given here. All of them, as the panel tells you, cover such universally wanted accessories as radio and antenna, heater and defroster, windshield washers and built-in back-up lights.

These are individually itemized on your bill of sale. Not itemized, but still included in your Buick when you get it, are many things that classify as extra-cost items on many other cars.

For instance, Foamtex seat cushions are an extra value on Buick SUPERS and ROADMASTERS that cost you nothing extra.

You get direction signals, rear wheel shields, a flexible steering wheel, an air cleaner, an oil filter, a clock—all included in the basic list price. On all ROADMASTERS, these prices even cover Dynaflo Drive as standard equipment, not an extra-cost item.

Included also, of course, are such Buick extra values as Fireball power, which you get nowhere else—all-coil springing, almost an exclusive—the widest rims in the industry—and that very special and desirable solid Buick feel.

So—check the "extras" when you price today's cars. Check the "deal" too, and make sure it's as fair and aboveboard as the Buick sales policy.

We're pretty sure what your conclusion will be when you see what stepped-up production is doing to deliveries. You'll decide "Buick's the buy!"—and get your order in.

## "Buick's the Buy"

More clearly than ever

## Back on Her Feet Again

This smiling young lady is Susan Ginsky, 14, of Chicago, who suffered the loss of a leg in a railroad accident a year ago. Here, she sets out for an evening of dancing with her two dates, movie actors Peter Fernandez, left, and Al Rumsen.

## ROBIN BREAKS FIRE REGULATIONS

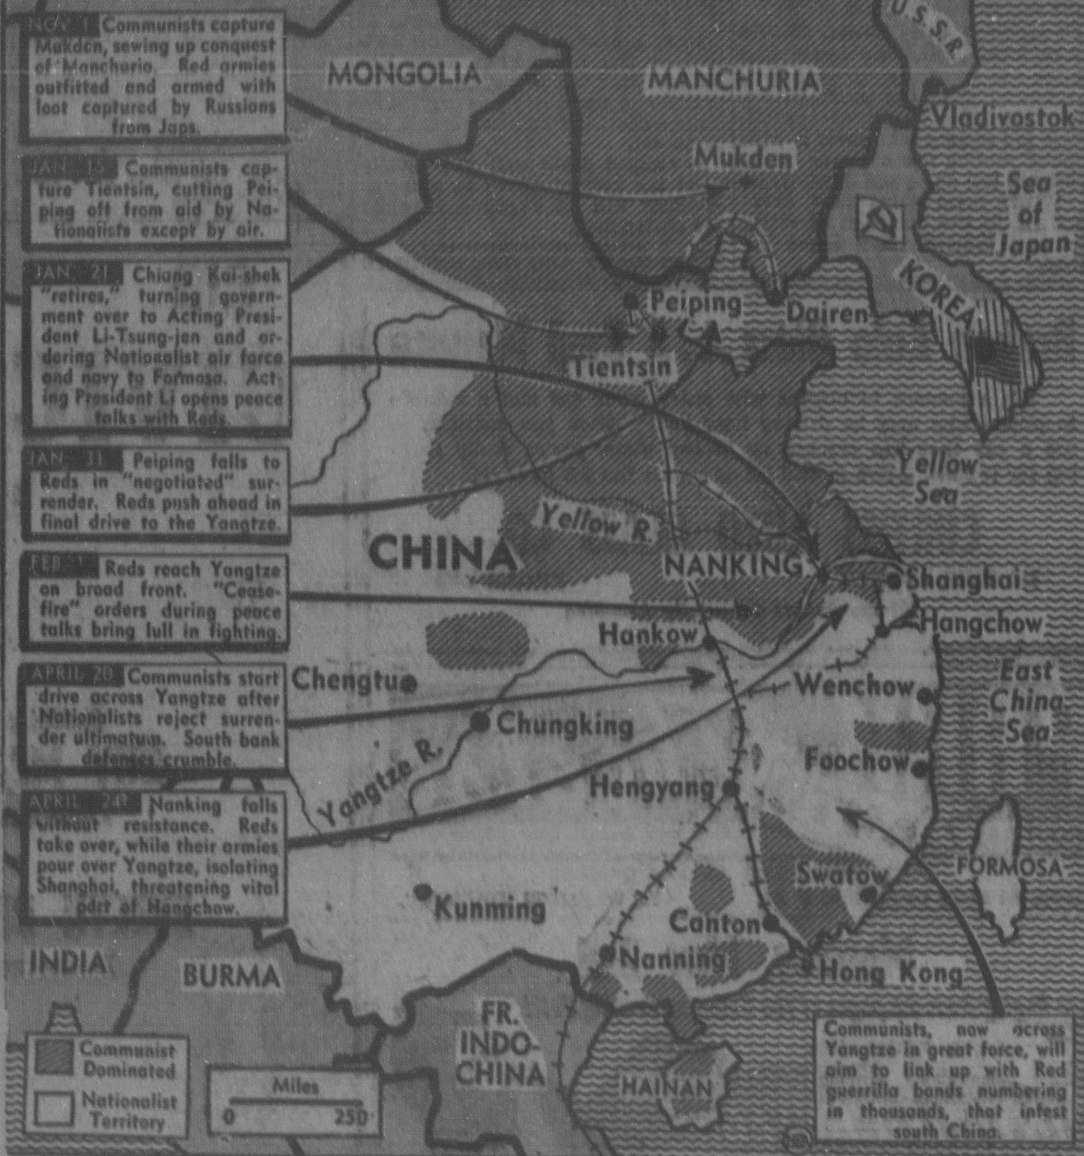

IT'S STRICTLY against the law in New York City to clutter up a fire escape, but this robin paid little heed to the statute books. At left (top) she built her nest to hold three eggs. At right (top) she starts upon her career as a mother, while at bottom she listens to her youngsters as they begin to howl for their breakfast soon after they were born. (International)

## HERE'S INGRID---MATE ON WAY

HOLDING HANDS, actress Ingrid Bergman and director Peter Lundgren stroll through town at a reception held on the lawn at St. Paul's, N.Y., where they are making their last picture "After the Hurricane," which they hope will take the couple to make love from Hollywood. Bergman, 34, Peter Lundgren, 30, left from New York by plane to his job, who has been reported planning to marry Bergman.

## Chiang Relaxes

At Chikow, China, Chiang Kai-shek dons U. S.-made heavy fur jacket, slacks and cloth-soled shoes as he strolls in the hills near his home village. This is the first photo of Chiang as a civilian since he retired as president of China.

## Jessup Arrives

Watched by a crowd, Philip C. Jessup, American ambassador, arrives at New York to confer with Jacob A. M. Smith, chief adviser of the United Nations. Jessup is expected to remain in the city for a brief period before leaving for his post in London.

## SHANGHAI: 'AWAY--ANYWHERE'

Wealthy Chinese jam Shanghai's Lungwa airbase, seeking flight.

Wearied Nationalist soldiers and a "Woe" (left) at North station. SHANGHAI is a scene of confusion as the rich seek flight to "anywhere" from Communist onslaught. Refugees and Nationalist soldiers mill about in the vast metropolis, creating an insurmountable feeding problem. Traffic arteries are jammed with vehicles and foot travelers, and those with Nationalist money are spending it fast, expecting it to be worthless hourly. (International Soundphotos)

## Americans Stranded in Shanghai

More than 2000 Americans were stranded in Shanghai (left) as the city fell to Communist hands. The city's 100,000 residents were divided into two groups: those who remained in the city and those who fled. The Nationalists have taken on a 25-mile defense line to protect Shanghai.

## FINALLY BACK ON HIS FEET

FIRST STEPS since August, 1947, are taken by 11-year-old Tommy Larson, Waukegan, Ill., as he recovers from severe burns suffered when he fell into a blazing refuse pit at Great Lakes Training center. Hundreds of blood donations through "Let's Help Tommy" clubs helped to restore him. Nurse Mildred Martin watches at Chicago's Passavant hospital. (International Soundphoto)

## Represents 4-H

BESPECTACLED Meta Marie Keller, 21, of Streator, Ill., has been chosen as a 4-H delegate to take a trip to Europe under the International Farm Youth Exchange Project sponsored by the U. S. Department of Agriculture. During her 11 years of 4-H work, Meta has won many high awards including a college scholarship. (International)

## A Fella Needs His Dog

The eyes of 8-year-old Frank Howard, of San Diego, Calif., mirror the gratitude he has for city construction workers who rescued his dog Spotty, imprisoned in an abandoned water main for 29 hours. Here, Frank lifts his wire-haired terrier to safety.

## Radiation Badge

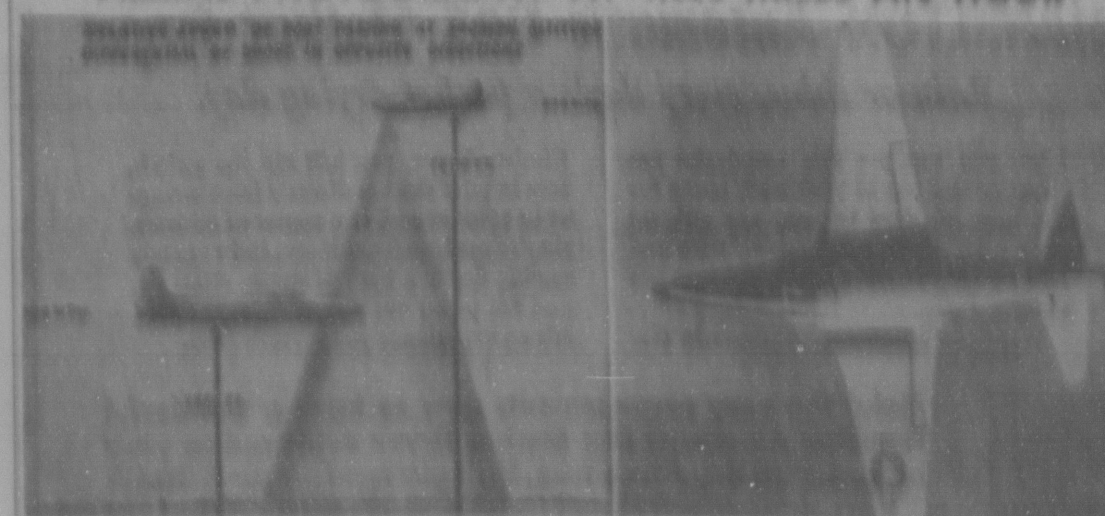

Hospitalman Third Class Gerald Smith, of Bethesda, Md., Naval Hospital, wears the Navy's newly-adopted film badge which measures the wearer's exposure to atomic radiation and other forms of radioactivity. Badge will be worn by all Navy personnel who work with X-rays, radio isotopes and industrial radiography. Film is replaced and developed periodically.

## NEWEST AND FASTEST MEET IN SKY

MEETING IN THE SKIES during a flight at Dayton, O., two of the Air Force's newest and fastest bombers seem to be flying wing-to-wing. At left is the B-49 Flying Wing, powered by eight jet engines. It is capable of speeds over 500 miles an hour. At bottom is the Stratojet, with six jets and a speed of 600 miles an hour. (International Soundphoto)

## AERIAL PHOTOGRAPHY AT 1,000 MILES AN HOUR

THE PHOTO AT RIGHT of an Air Force B-49 jet bomber was made at a 1,000-mile-an-hour plane speed in a test of a new communication system that uses the bomber's own image on a long strip of film. The diagram at left shows how the 1,000-mile-an-hour speed was achieved. A camera plane, traveling at 500 mph, passes over a target plane traveling in the opposite direction at 500 mph. When the target plane passes through the field of view of the camera, the result of the picture and its 1,000 mph. (International Soundphoto)

# Jeep Puts 'View' Into U.S. Voice To Sell America's Story Of World

Assistant Secretary of State George V. Allen inspects one of 65 jeeps, which will carry motion picture projectors, radio, recording and public address equipment to the far corners of the globe.

By DOUGLAS LARSEN  
WASHINGTON — (NEA)—The State department will soon have 65 potent packages of propaganda in action selling the story of America, in pictures, to more than 100,000,000 people around the world.

The packages are jeeps loaded with every kind of picture projector ever dreamed up, plus elaborate radio and recording equipment and a complete public address system. The idea is to turn the Voice of America into the "View of America" and take it to the people in every far corner of the globe.

trived Europe in 1947 to see how effective the Voice and other propaganda efforts of the State department were, discovered that only a handful of the people were being reached with the story. Audiences were mostly limited to those who owned radios and could read. The great mass of the people, including many workers and farmers, just weren't getting America's side of the argument in the cold war.

The picture, and movie-laden jeep is the State department's answer to this problem. Movies and still pictures, it has been discovered, are excellent mediums for mass education. And when they are brought right to backyards, where it requires only a minimum effort to see them, they're twice as effective.

In addition to telling the story of democracy with movies and slides, the jeep is equipped with powerful short wave radio for picking up actual Voice of America broadcasts. The public address system lets any sized audience in on the programs, giving millions a chance to hear them who would not have been able to otherwise. Transcribed music and educational programs can also be provided for great numbers of people in this way.

Another use for the unit is to record the propaganda programs and speeches of the other countries for later study and analysis. One or two men will travel with each jeep as it takes its story to the far reaches, depending upon how far from the home base it must go. It is equipped with air mattresses, camping equipment,

## Leetonia Legion Picks Boys' Staters

LEETONIA, May 2—James Aiken, son of Mr. and Mrs. Frank R. Aiken, 330 Ridge st. and Willis Roller, son of Mrs. Louise Roller, 342 Somer st., juniors at Leetonia High school, have been selected by the committee of the Joe Williams post, American Legion, to attend Boys State at Ohio Wesleyan university, Delaware, June 18 to June 28.

Selection of the boys was based on scholarship, leadership, sportsmanship, self-reliance, personality and a preference for civics or public speaking in their school work.

Aiken is a member of the High School band, the cappella choir, Boys quartet, Dramatics club and the school baseball team. He is also a Star Scout and active in church work.

Roller has been a three-year letterman in basketball, plays baseball with the high school team and is secretary of the Junior class.

**Final PTA Meeting**  
The final meeting of the year for the Patrons-Teachers association will be held at the high school building this evening at 8. Election of officers will be held.

Rev. Harold B. Winn, pastor of the First Friends church at Salem, will speak on "Exposing Communism Today."

The president, Wilbur Peterson, is desirous of a good attendance.  
Mrs. James Harry returned to her home at Atlanta, Ga., Thursday after visiting her sister, Mrs. Patrick Carey.  
Mr. and Mrs. Harry Yoo have returned to their home after several days visit with Mrs. Yoo's mother, Mr. and Mrs. O. F. Fritz at Massillon.

Frank Thorndell has entered the North Side unit of the Youngstown hospital for observation.

## J. H. Tredinnick New Bliss Vice President

J. H. Tredinnick was named vice president of E. W. Bliss Company, it is announced. Tredinnick is manager of Bliss' Hastings, Michigan, plant, which specializes in the manufacture of small and medium-sized punch presses and high production presses.

Tredinnick joined Bliss in 1935 to take charge of this plant. For the previous six years he was factory manager of the V. & O Press Co., Hudson, N. Y. Prior to joining V. & O. he was associated with the Lantano Monotype Machine Co. of Philadelphia.

A day at sea is divided into six periods of four hours each.

## Loses Driving Rights

LISBON, May 2—Jack Adams, 18, who drew a 60-day suspension of his driver's license last April 5 when he was found guilty of reckless driving by Juvenile Judge Milton C. Cope, today had the suspension extended to one year by the court for violating the previous court order. Adams was arrested a few days later by Officer Leon Zahndt on a charge of driving while intoxicated on which he drew a \$100 fine and a 30-day jail sentence when he faced Mayor Kenneth Hiseox. He is now serving his term in the Mahoning county jail.

During 1948, Iowa produced 207,697,000 pounds of creamery butter, being first in this respect, with Minnesota's 175,891,000 pounds ranking second.

## WASHINGTONVILLE

Mrs. Merle Stouffer was a pleasant hostess Wednesday evening to the Wednesday night "500" club associates. Cards were played for pastime and honors were won by Mrs. Lester Spears, Mrs. George Stouffer and Mrs. Walter Tourdel. Lunch was served by the hostess. The group will meet with Mrs. Albert Weikart in three weeks.

Mrs. Charles Geiger had her gitter removed Wednesday at the North Side hospital, Youngstown. She is getting along fine.

Mrs. Ted Riddle, Mrs. Louis Atkin-

son and Mrs. William Grin attended the inspection of Friendship Temple in Salem Thursday evening.

Fride of the Valley Temple will hold their regular meeting Tuesday. Family night will be observed at 7:30 Wednesday night in the Methodist church. The youth group will conduct a discussion with parents. The project is being sponsored by the Bethel class.

The grade school pupils of the Washingtonville school will hold a play in the auditorium Wednesday.

# New Housing Census Of Nation Called Vital

## Producers' Council Head Urges Survey To Guide New Legislation

A new census of the nation's housing supply and its condition is "imperative," it is stated by James M. Ashley, president of the Producers' Council.

"The housing supply situation is

## McCulloch Store Project Permit Tops New Work

Building permits totalling \$33,070 in valuation have been issued by Mayor R. R. Johnson since mid-April.

The largest of the 11 permits issued is for \$30,000, taken out by the R. B. McCulloch Co. of 867 E. State st. for building and repair to the department store.

Other permits included the following:

- W. H. R. Building Co., 1465 Buckeye Circle, new dwelling, \$2,000.
- John and Evelyn Yuhaniak, 945 Jennings ave., new dwelling, \$8,000.
- Virgil F. Wilson, 1892 E. State st., restaurant and dairy product building, \$4,000.
- B. E. Christopher, 1483 Orchard ave., enclosing porch, \$350.
- K. O. Weigler, 210 E. State st., alter entrance, \$200.
- Guy O. Thomas, 2051 E. Pershing st., repair dwelling, \$300.
- N. T. Orshan, 176 E. Wilson st., repair dwelling, \$500.
- Angelo Citino, 812 Summit st., garage, \$200.
- Arnold Greene, 1185 E. Third st., garage, \$500.
- Earl Sprowl, 251 W. Eighth st., garage addition, \$120.

surrounded by confusion and uncertainty which can be cleared up only with the aid of an actual count, such as the Census Bureau would make in connection with its regular decennial census of population," Mr. Ashley declared.

"The factual data collected with respect to housing would be a valuable guide to future housing legislation and also would aid builders in measuring the future market for housing by price brackets."

The president of the Council, which is a national organization of building products manufacturers, said a new census would have special value because the results, when compared with the totals collected in the housing census of 1940, would provide a means for checking interim estimates.

"There is reason to believe that the volume of home building since 1940, and particularly since the end of World War II, may have been substantially greater than current estimates," Mr. Ashley continued.

"If that is true, builders need to have the facts so that they can gauge their future operations accordingly."

"An accurate census of housing also would throw new light on the number and condition of existing homes and provide a useful guide as to the number of older homes that need to be repaired in the next few years in various individual communities," he concluded. "At the present time, the building industry is forced to rely too largely on guesswork."

### Mirrors Adorn Walls

Mirrors on the bathroom wall provide a decorative background. They minimize wall cleaning tasks and give an impression of spaciousness.

## NEW HUMIDIFIERS ARE A HEATING EQUIPMENT USE

### Now Able To Distribute Sufficient Moisture By Quiet Operation

A number of devices and types of equipment have been developed for providing humidity in connection with hot water and steam heating systems, a spokesman for the plumbing and heating industries reports.

Some of these devices are used in connection with radiators or convectors while others operate independently on the heat distributors.

One type of humidity device takes the place of a valve on a low pressure gravity steam system and will discharge one pint of water vapor an hour at one pound steam pressure.

This is said to be sufficient humidity for about 2,000 cubic feet of space. The humidifier operates quietly and also performs the function of a quick-venting air valve.

Another type of automatic humidifier can be used in connection with hot water or steam-heating radiators. It consists of twin troughs which are concealed in loops inside the radiator sections. A constant level of water is maintained automatically by a float-controlled valve.

Also available is a unit especially designed for use with concealed convector radiators. It is made in 10 sizes.

Devices used independently of radiators vary from small units which can be moved from room to room to the large cabinet style units capable of humidifying an entire house.

Most of these units have a fan which draws air in through a wet filter and then re-circulates the air to the room. Besides adding water to the air, this type of humidifier also removes smoke and pollen and freshens the air.

## SMALL HOME - LARGE LOT FITS NEEDS

Landscaping and putting in a lawn are next on the program of Raymond Adams, 808 Summit st. The concrete block garage is receiving finishing touches beside the home the Adams moved into this winter.

The small frame home—four rooms and a bath—was placed on 16-inch concrete block over a full basement. The siding has been placed over this insulating board which goes up to the roof.

Pastel colored plaster in a scroll pattern was used for the interior. The plaster was pre-tinted. Oak flooring was used throughout the house and living room woodwork is also oak. White pine woodwork was used for other parts of the house.

A hot air furnace is used in the Adams home. A blower and thermostat are used in connection with the heating system. Storm windows and doors have been secured for the house.

Adams says that he particularly likes the heavy base for roof shingles and the heavy subflooring installed in the house.

The attic is unfinished but can be reached for storage space and through a large closet a stairway could be built to the second floor.

Elimination of the semi-annual storm sash chore, plus the fact that large windows are easier to clean than dozens of small panes, are among other reasons why homeowners are thinking in terms of window walls and picture windows.

Charles King of Lisbon was the contractor of the house which is priced in the \$10,000 bracket.

terers International Union, U.S. Chamber of Commerce, National Association of Home Builders, Apprentice Training Service, U.S. Department of Labor and Structural Clay Products Institute attended the session.

"There are now 12,215 brickmason apprentices learning their trade in 45 states across the nation, according to Labor Department estimates," Mr. Goodwin said. "This record is due to the splendid cooperation between employer and labor groups in the construction industry."

"The importance of quantity production cannot be over-emphasized, but in the interest of sound construction and economy, the quality of brickmasonry must be kept on its present high level to assure minimum maintenance costs, in housing as well as in commercial and public construction."

## DON'T FORGET... I NEED REPAIRS

## Experts' Tests Show Large Glass Areas Eye Help

Contrary to popular belief, large window areas which let in the maximum amount of light do not result in glare and eyestrain.

Repeated tests made by experts in the field of lighting and good vision have shown that eyestrain frequently is caused by sharp contrasts of light and dark areas within a room which has small or "average" size windows.

Large windows offer relief from eyestrain because they encourage occupants of a room to change their focus from close to distant views. The benefits of natural daylight and long range vision are apparent among those who work outdoors. They seldom need to wear glasses because their eyes do not suffer from fatigue and strain common among workers who spend daylight hours indoors in rooms with small, inadequate windows.

Introduction of window insulation, by the development of Thermopane, coupled with improved methods of heating enables present and future homeowners to enjoy all the advantages of larger windows without sacrificing comfort or noticeably increasing building or maintenance costs.

Elimination of the semi-annual storm sash chore, plus the fact that large windows are easier to clean than dozens of small panes, are among other reasons why homeowners are thinking in terms of window walls and picture windows.

## Light Concrete Roofs Recently Introduced

Concrete roofs, built with the lightweight aggregate of vermiculite, which is expanded mica pellets, are now proving feasible over large areas. A factory of Augusta, Ga., has a four-acre roof of this material.

It is now being widely used for flat roofed houses. Philip N. Yountz, an architect, has developed a method by which the roof of a house can be poured on top of the floor slab and then raised into place with hydraulic jacks, which he calls skyhooks. All casting is done on the site because of the economy in transporting materials rather than slabs.

The method was preferred to crane hoisting, because the cost of a crane in the area in which experiments were conducted is about \$160 a day.

## New Paint Replaces Old Wall Plastering

A plaster-paint to serve the purposes of both plaster and paint in one operation has been developed from soybean oil and styrene with silica and pigments. It has the consistency of a thick malted milk and can be applied to either interior or exterior walls. Its single coat of heavy texture replaces the usual layers of plaster and various paint coats.

The finish is said to be highly resistant to moisture and can be washed. Heat is not supposed to blister it.

Porous materials, such as concrete and cinder block, insulating wallboard, brick and plywood, as well as polished surfaces, such as glass and aluminum, take this finish without preparation.

## Many Families Install Inter-House 'Talkers'

Various private telephone or "inter-com" systems are now being used in homes and on farms to save steps and lung power. Some connect an upstairs bedroom with kitchen, front door with kitchen and laundry, house with barn and livingroom with basement workshop or hobby room.

With some homes spreading out over large areas, such telephones have graduated from the toy stage. Among recent developments is a self-powered two-station hand set phone that requires no batteries or other power supply.

## NEW ECONOMY HOUSE IS NOW ON MARKET AT TOP PRICE OF \$6,500

The low-cost house is a reality again. It can be built in any section of the United States for \$6,500 or less.

The catch is that there must be two kinds of economy, one good and one not-so-good. If there is economy of cost, there must be economy of space as well. Today's under-\$6,500 house is smaller than its pre-war counterpart. It must be built simply and compactly.

What makes the low-cost house low cost? That question was asked of Howard Leland Smith, technical director of the government's Economy Housing Program.

All Plans Similar Mr. Smith replied: "Economy in the building of houses means that the greatest usefulness must be obtained from the smallest space. There must be economical utilization of materials. Labor costs can be reduced and materials can be conserved by planning room dimensions which permit the use of standard length structural members."

Information on eight low-cost houses already built in widely separated parts of the country shows that construction details are closely similar. This leads to the conclusion that any FHA-approved economy house will be generally the same as any other.

Average cost of the eight houses was \$5,164. Prices ranged from \$3,995 to \$6,500. Land was included in the cost. The average plot measures 67 by 140 feet.

Conventional on-site construction methods were used. Exterior siding is either asbestos or wood. All the houses are protected by fire-resistant asphalt roofing, chosen for its combination of economy and serviceability. Where houses are erected in groups, builders depend on the wide variety of asphalt shingle colors to help create distinctiveness of appearance for each individual home.

Basements Not Included The average economy house has a living room, two bedrooms, kitchen and bathroom. None of the eight houses has a basement. Provision is made for heating systems, the type depending on the climate.

Houses selected as examples of economical construction were built in Columbia, S. C.; Evansville, Ind.; Ypsilanti, Mich.; Smithtown, N. Y.; Tucson, Ariz.; Baltimore; Jackson, Tenn., and South Whittier, Calif.

## Cause and Cure For That Leaking Roof

A leaky roof can damage many parts of a house, which aren't directly under it, such as plaster, paint, wall paper and rugs. Thus it makes sense that leaks should be repaired immediately.

The toughest job is finding a roof leak, because instead of dripping, right down through the hole, the water runs down a rafter. This isn't too hard to find if the rafters are exposed.

Once you locate the leak, get up on the roof and see what's causing it.

On a shingle roof, you'll probably find a shingle that's loose, or one that's split. This you can repair by cutting two pieces of heavy copper, about two inches wide by six to eight inches long, depending on the length of the exposed part of the shingles. Raise up the split shingle slightly and drive the piece of flashing up under it until it is out of sight. Do the same thing with the shingle directly above.

Another remedy is to replace the old shingle. Split the old shingle with a chisel and remove it. Push in a new shingle of the same size and shape, and fasten it with copper or galvanized nails.

A leak in an asphalt shingle roof is more difficult to repair. After finding the approximate location of the leak, remove a section of shingles about three by four feet and put in new ones. Many special roofing compounds will lengthen the life of these shingles.

On a tin roof, fill the hole with caulking compound or thick paint, and nail a patch of ample size over the spot. Paint under the patch before fastening with galvanized nails.

Leaks around chimneys, vent pipes and dormer windows where they extend through the roof, are caused by loose flashing or dried out roof cement. To stop a leak at these places, coat with fresh roof cement. Deteriorated flashing may be remedied by covering the old flashing with new material. Slide the edges under the roofing material at each side.

## Make New Roof Plank

A New York concern has announced development of a low-cost lightweight roof plank that may reduce building costs as much as 20 per cent.

The new slab, according to Durlsol, Inc., is modeled from mineralized wood chips combined with cement. It will compete directly with the widely used concrete planks, and is the first single unit to combine roof decking, insulation and sound absorption, according to the company.

The building saving is attained, it was said, because less structural steel is necessary. The new type plank, capable of supporting a live load of 40 pounds per square foot, can be installed by two men.

## MORE AUSTRIANS OWN HOMES

Building societies in Austria have enabled 10,000 Austrians to own their own homes in the 25 years the system has been operating, exclusive of war years.

These societies are the counterpart of savings and loan associations in the United States.

## SHOWER BATHS ARE NEW

Tiled shower baths, found in the great majority of all urban homes today, are a comparatively recent innovation in the United States. One of the first batteries of showers in this country was installed at the New York Juvenile Asylum in the 1880's and tiled showers did not become popular in homes until the 1920's.

# Building Cost Rise Is Defended With Statistics

WASHINGTON — The rise in building costs during and since the war has been well in line with the rise in prices and consumer income generally, Melvin H. Baker, chairman of the Construction Industry Information Committee, asserted recently.

"The rise for all construction, according to the Department of Commerce composite of several indexes, has been 112 percent from 1939 through 1948," Mr. Baker said.

"The increase in residential construction costs in the same period, according to the widely used 20-city index of E. H. Boeckh & Associates, has been 114 per cent.

Other figures cited:

"These increases are in line with the rise in wholesale prices of all commodities—114 per cent from 1939 through 1948. Wholesale building materials prices are included in the all-commodities index, and their rise has been 120 percent.

"The building materials price rise may be compared with other components of the Bureau of Labor Statistics wholesale price index. Farm products have risen 128 percent; raw materials, 154 percent; semi-manufactured goods, 103 percent, and manufactured goods, 98 percent.

"Since building materials production extends from the processing of raw materials to final factory products, it would be expected that their price rise would fall somewhere in between that of raw materials and that of manufactured goods. That is the way it has happened.

**Housing Demand High**

"It is noteworthy that residential construction costs have resisted the shock of unprecedented demand for housing with a rise no greater than that of all commodities, many of which experienced a much more modest increase demand.

"If we measure this rise in housing costs against the purchasing power of housing consumers, we find that average wage and salary incomes for urban families have increased 122 per cent in the shorter period from 1939 to 1947 and that for rural nonfarm families—those living in small urban places, in small towns, and in isolated settlements—the family income rise has been 172 percent.

"Generally speaking, the average family was better able to buy a new house in 1948 at 1948 costs than in 1939 at 1939 costs."

## 1949 Forecast As Outstanding Building Year

Evidence that 1949 will be another year of tremendous production of new homes in found in reports of residential construction "starts" released by the Bureau of Labor Statistics.

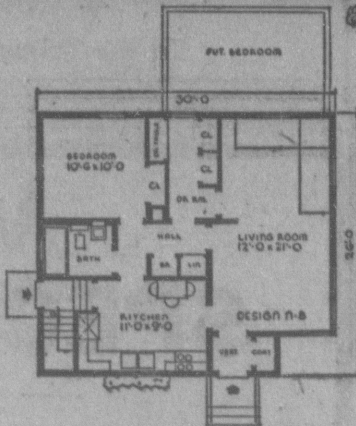

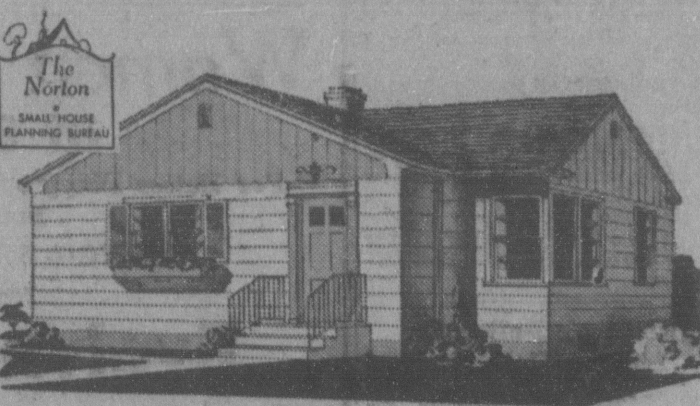

Authority for this statement is the National Association of Home Builders, whose members account for an estimated 80 per cent of all current production.

In non-farm areas of the United States 158,000 new homes were put up in place in January, February and March of this year, it was reported. The association said that this unusually fast early-year building pace will be nearly doubled during the second quarter when better weather conditions prevail throughout the country.

This year's first quarter production of residential dwelling units is slightly behind 1948, when the record total of more than 1,000,000 new homes was completed and turned over to the home-buying public, the association reported. However, this production record for the first three months of 1949 is well ahead of 1947, another big home building year, the association continued. During the same period in 1947 only 142,600 new dwelling units were started.

The preliminary estimates for 1949 starts which were made by the BLS at the end of last year was 875,000 homes. With adequate mortgage financing, the private home building industry will equal or surpass that mark, the association predicted.

## FOR BED-LIVING ROOM COMBINATION

THE NORTON has a combination bedroom-living room which offers interesting possibilities. Built-in twin beds, in this room, are partitioned off by folding doors from the other half of the living room. By day, the beds serve as day beds, thus concealing the dual purpose of the room. However, when divided at night, both sections have access to the hall, without disturbing the other

section. Wardrobes and a dressing table are located in the dressing room. The present dressing room will double as a passage to a bedroom in the rear when the latter is constructed at a later date.

The Norton's kitchen is equipped to serve the complete house. It has a large dining space. A grade entry leads to The Norton's basement. There is a handy coat closet in the front vestibule and a broom and linen closet in the bathroom hall.

Plans of The Norton call for frame construction with a siding exterior and a roof covered with asphalt shingles.

The overall dimensions of The Norton are 36 feet by 26 feet with a floor area of 758 square feet. There is a volume of 14,402 cubic feet.

For further information about THE NORTON, write the Small House Planning Bureau, St. Cloud, Minn.

## Rent New Home Now - Buy Later

LOS ANGELES — "Rent a new home with option to buy later," reads an advertisement in a Los Angeles newspaper.

Your first impression is that you've picked up a pre-war newspaper by mistake. But no, the date is 1949.

"You get a brand new home on a five year lease, with option to buy at the end of four years," the ad continues. "You pay \$49.50 per month plus a returnable deposit of \$500 on the option."

"You get this \$500 back with two per cent interest if the option is not exercised. If you do buy, you get an added credit of \$10 out of each month's rent to apply along with the \$500 deposit on the total purchase price of \$6250."

Sounds incredible, but it isn't. It's Victor Girard's plan for beating the high cost of housing. Girard is executive director of Palisades Builders, Inc.

How, in this area of inflation, can a builder make any money at such prices?

"That's easy," says Girard. "With our own financing we can build a home, and make a profit, for \$6,250."

Girard's financing, incidentally, is done by Thomas E. Bragg, president of Palisades Builders, who guessed right when the market went sour in 1929. He is reported to have made millions while other fortunes were crumbling.

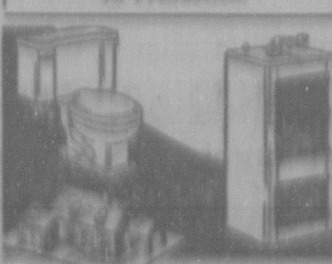

"Mass production methods, assembly line construction, with workmen moving from one house to the next with no loss of time," says Girard, "is the secret of success in building today. Savings in labor are even more important than savings in material."

The homes will have one floor plan: 635 square feet of floor space,

## MASSACHUSETTS SOLAR DWELLING HAS NO FURNACE

The Only Drawbacks Are Drafts, Slow Drying After Mopping

By MARY PRIM  
DOVER, Mass.—A Hungarian scientist trapped sunbeams to heat her house this winter and kissed goodbye to furnace chores and high fuel bills.

Attractive blonde Dr. Marcia Telkes found her "solar house" comfortable, even in zero weather. It cost about \$20,000—including the \$3,000 for the solar heat unit.

Although the unusual, open winter was not a good test, Dr. Telkes thinks solar heating is ideal for southern New England. Dr. Telkes lives in the house weekends with relatives, Dr. and Mrs. Anthony Nementhy, who are full-time occupants.

The furnace-free home is a private project designed so that the average sunshine will equal average heat requirements in winter.

**Heating Unit in Roof**

The heating unit is built into the roof. This is mostly glass over an 800-foot square black metal sheet. Glauber's salt, melted under the rooftop sunshine, sends warm air to "heat bins" through the five-room house. Each bin serves two rooms through registers or heat outlets.

Dr. Telkes, an associate researcher in metallurgy at Massachusetts Institute of Technology, estimated the solar heating would warm the house through 10 sunless days.

She said this section's longest sunless stretch in the last 18 years was six days.

She reported the only current problems in the "solar house" were drafts around doorills and floors that dry slowly after mopping. On the other hand, the system costs almost nothing to operate, and it gives even heat with no "overheated" spots.

**M.I.T. Also Experimenting**

"But," she advised, "in and around Boston is about as far north as you can go to build a solar house."

M. I. T.'s solar energy conversion committee is experimenting along that line, too.

Their solar house is on Memorial Drive, Cambridge. They catch the sun's heat through many-paneled sloping windows on the roof and they use water instead of Glauber's salt to store and distribute the heat.

The sun-warmed water is pumped into a 1,200-gallon storage tank, then circulated to room-heating ceiling panels.

Engineers plan to keep the house at 68 degrees at all times. But they have supplementary electric heating units help out in cold, sunny weather. The house is insulated and has thick curtains on the double-paned windows.

Tech's solar house is only a few weeks old and the engineers said it was too soon to draw any conclusions on how it will work out.

builder doesn't set a price that suits you at that time, you don't have to buy the house—and you get your \$500 back.

## Up Production Of Fireproofing Asbestos Fibers

Asbestos cement building products, in heavy demand for postwar construction, should be in somewhat greater supply this year if the mining of raw asbestos continues the upward trend it showed in 1947, according to the Asbestos Cement Products Association.

The only natural fireproof fibers known to man, asbestos fibers are combined with portland cement, also fireproof, to form incombustible, weatherproof building materials for homes, farm structures, industrial plants and commercial buildings. Reinforcement of the cement with asbestos gives the finished products unusual strength as well as durability.

In recent years production of these materials has been limited by a world-wide shortage of asbestos due to war and postwar conditions. Since there are few asbestos deposits

in the United States, most of the fibers used in domestic manufacture are imported.

Last year both imports and domestic output of asbestos were greater than in 1946. Imports totaled nearly 595,000 tons, compared with 456,000 tons the previous year. This represented 96 per cent of all the asbestos used in the United States during the year. Ninety-one per cent of that total came from Canada, the world's leading producer of the mineral.

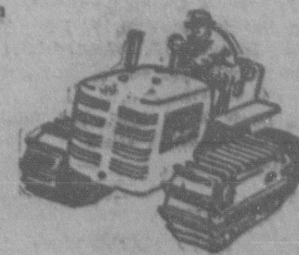

Domestic production reached a record 25,000 tons, 74 per cent more than the 14,400 tons mined in 1946. Most of this came from Vermont. The remainder was produced in Arizona, North Carolina, Georgia and California.

Introduced in the early 1900s, asbestos cement building materials have gained widespread public acceptance for remodeling as well as new construction. They are available in the form of siding, roofing shingles, general purpose building board and corrugated sheets. The latter two products are adaptable either for exterior or interior use. Aside from their incombustibility and weather-resistant qualities, asbestos cement materials are noted for their permanence.

## Plumbing Men Find 4 Ways To Stop Corrosion

Among the most significant "dollar stretchers" developed by the plumbing industry in recent years, are methods for checking and preventing of corrosion, the Plumbing and Heating Industries Bureau states.

Four types of corrosion-preventives have been developed. These are deactivation, deaeration, self-healing films and sacrificial metals. The two later methods are of particular interest to homeowners.

The use of a so-called sacrificial metal is based on the electro-chemical theory of corrosion. It has been found that if a rod of magnesium alloy is inserted in a hot water storage tank, the life of the tank will be substantially lengthened. This is due to the fact that the magnesium alloy in the rod will be dissolved in the water and precipitated on the walls of the tank.

Thus the magnesium alloy protects the galvanizing of the storage tank, the iron of the storage tank and the brass fittings in the tank. Rods of magnesium alloy are available commercially from plumbing and heating contractors and are recommended for use in automatic storage water heaters, range heaters and hot water storage tanks. The rods are made in various sizes and equipped with fittings for ease in installation.

The life of the rod, which may be installed in either old or new tanks, is estimated at 7 to 10 years in soft water areas and 3 to 5 years in hard water areas, depending on the corrosive qualities of the water.

Another method for the prevention of corrosion which has been developed recently is the use of self-healing films. These films are chemical compounds which cling to the side of the water storage tanks and water piping and thus inhibit corrosion.

The special chemicals are added to the water by plumbing dealers who place a specially designed feeder in the cold water line entering the water heater. The feeder, of course, must be periodically refilled. Neither the rod nor magnesium alloy nor the chemical which is fed into the water affects the taste or odor of the water in any way. The

materials are not detrimental to health. Both methods of corrosion prevention also eliminate the rusty water caused by corrosion of storage tanks.

## New Heating Units Are Easy To Decorate

Ever tried painting old style cast iron radiators? Then you know what a chore it is to put a smooth coat of paint on surface made almost inaccessible by the deep ribbed design of the units.

In contrast to old radiators, new heating units are easy to decorate. The heating element of new convective radiators, for example, is enclosed in a streamlined metal cabinet with rounded corners and flat surfaces. Painting is simple. There are no crevices difficult to reach with the paint brush. Cabinets may be painted either to blend with adjacent walls or draperies, or to contrast with them to add a distinctive note to room interiors.

The streamlined design permits easy recessing of the units in the walls, usually beneath windows, or installation flat against walls if recessing is impractical.

## Antique Lovers Buy Old Homes — Rebuild Them

Some people prize early American architecture so highly they are willing to pay for "flaking" a house. "Flaking" is a method of moving old New England homes by taking them apart, piece by piece, numbering every detail and then rebuilding them on a new site exactly as they were originally.

The operation costs much more than building a new house, but appeals to the antique enthusiasts. One large home built on Cape Cod in the late 1800s, recently was moved and re-erected at Wayland, Mass., by the "flaking" method. Another old homestead built at Deerfield, N. H., in 1780, was dismantled in the same way and restored in a Boston suburb.

Harold Sargent Conant, a New England contractor, specializes in the process, collecting old houses and storing the pieces.

**FIRE ALARMS FOR HOMES**

There are several fire alarm systems now in use in homes and on farms. They are more sensitive than automatic sprinkler systems and sound an alarm as soon as fire breaks out at any point. Some detect either fire or sudden cold and can be used for heat failure in important places such as incubators.

## Fledgling Nation Facing Stern Test In Holding To Its Elusive Neutrality

By JAMES M. LONG

TEL AVIV—(AP)—Tough little Israel, still in the swaddling clothes of infant statehood, is facing her first full-grown world problem—and doesn't like it.

That problem is how to stay neutral in the cold war between East and West, or which side to pick. Israel would not like to have to choose. She would rather steer a neutral middle course, at least for the immediate future years in which she must absorb immigrants at a rate proportionally 20 times faster than the United States ever attempted.

### Is Realistic

But the new Jew of Israel is realistic. He doubts that his state will be allowed neutrality. He hopes, at least, however, that the hour of decision can be postponed.

Yet that hour seems already near to striking.

The issue is expected here to come to its first hard moment of choice when, now that the North Atlantic pact is signed, attention turns to firm proposals for a Mediterranean pact.

Italy probably would be in such an alliance, as bridging member between the North Atlantic and Mediterranean pact nations. Greece likely would be in; Turkey almost certainly; Egypt possibly.

And Israel, the little state with the big army at the doorway to the oil wealth, the battlefields and the air bases of the Middle East, could hardly escape invitation to make her choice.

Most people here think they know what that choice would be—though they all wish the need for choice would not come. They point out that the Communist vote in Israel's first election was less than five per cent.

But there will be hidden factors in the ultimate decision of more far-

reaching importance than the division of votes between Communist and non-Communist parties. That is only the surface.

Two such factors are the American dollar—and the eastern European Jewish immigrant.

### Consider Both Factors

In the government here, both factors are being kept in mind. Israel must have dollar credits for her essential imports; dollars with which to develop her own industry; dollars to help finance a nation not expected in the near future to be fully self-supporting.

Russia is not offering financial assistance. But she has cut off the stream of Jewish immigrants from almost all eastern Europe. (None ever were allowed to come from Russia itself.) When or whether this immigration is allowed to resume probably will depend on what Moscow thinks of Israel's future international position.

There is a third factor—Britain. This state, which still smartens under its experiences under the mandate and views with alarm every British move and move in the Middle East, can be expected to regard with caution any pact in which Britain is a sponsor.

The lines of cleavage already are beginning to appear.

In the first sessions of the Knesset—parliament of the Hebrew state—Prime Minister David Ben Gurion, leader of the Labor government, scolded the left for leading "a cold war against the United States."

And his words were answered by some cries of:

"There speaks the American dollars! There talks the Truman loan!"

**Treasurer's Father Dead**

## Old and New

A striking contrast to New York's modern skyline, the brigantine Yankee sails past the Battery on the final lap of its 18-month world cruise, bound for Gloucester, Mass.

## DECLINE IN PRICE INDEX CONTINUES

WASHINGTON, May 2—(UP)—The government's wholesale price index declined one half of one percent in the week ended last Tuesday, the labor department reported today. The drop continued a six-week downward trend, a spokesman for the Bureau of Labor Statistics reported.

Average prices of farm products, foods and metals and metal products decreased. No commodity group showed a price advance for the week, the bureau reported. The index stood at 156.1 percent of the 1926 average, the bureau said. That was 1.3 percent lower than four weeks ago and 4.5 percent lower than the comparable week in 1948.

The bureau's weekly price estimate is based on a sampling of more than 100 wholesale prices.

## East Liverpool Video Picks Up Texas Show

EAST LIVERPOOL, May 2—All the engineering text books say it's impossible, but East Liverpool families have been picking up television broadcasts all the way from Houston, Tex.

Video viewers couldn't believe their eyes and ears the first time they picked up KLEE-TV. It was something like the infant days of radio 25 years ago when crystal sets picked up Chicago, for instance.

But many East Liverpool set owners have had a look in the last few nights at the Houston station. It

broadcasts on channel 2 and calls itself, fittingly enough, "The Eyes of Texas."

Paul V. Baxter of McKinnon ave. was one of the first here to stumble across the southeast Texas station. He was tinkering with his set one night, hoping to get a broadcast from a new Detroit station on the same channel. Instead, he got the outfit in Texas, but didn't believe it while he sat through a western movie. When the station signed off, sure enough, it was KLEE.

George Kelly of Glenmoor and Thomas Deville of Oak st. also have had the Lone Star station on their screens.

Television engineers, of course, hold that a video broadcast can't be picked up much beyond the horizon because the beam travels in a straight line. The theory here is that it has been bouncing off the ionosphere and landing on East Liverpool.

## Legislature's Policy On Liquor Gets Support

COLUMBUS, May 2—State Liquor Director Oscar L. Fleckner promises policy determined by the legislature on liquor control "will be conscientiously followed."

Fleckner's statement followed introduction of a resolution in the house calling for an investigation of gambling in liquor places.

The resolution was introduced by Rep. Joseph X. Schwartz (R-Hamilton), who said he wanted the liquor director to investigate "non-enforcement of gambling laws in Ohio—particularly in the Cleveland area."

**It has a Heart of steel and that new Ford "Feel"**

One look tells you why Ford was chosen "Fashion Car of the Year." And its all-steel construction is an important part of the new Ford "Feel."

Note how the body is welded into a rigid unit. Wood panels are bolted to the steel body for easy removal or replacement. Laminated and molded, they resist water, warping and splitting.

Load through extra-wide side doors or rear "freight entrance." Rear seat easy to remove for extra space.

You'll notice the new Ford "Feel" in "Finger-tip" Steering, "Magic Action" Brakes, effortless "Econo-Power" Power. Come in and place your order today.

**Take the wheel...try the "Feel" at your FORD DEALER'S**

## COURTS

### Journal Entries

St. Paul Fire & Marine Insurance Co. vs Raymond Barber, et al; defendant in default for pleading of appearance. Trial to court. Finding that defendant, Raymond Barber was guilty of negligence in operation of his car on Route 170 on June 6, 1948, and that as a proximate result collided with the car of Viva Hume damaging said plaintiff's car to the extent of \$416.97 which it is adjudged and decreed plaintiff recover along with costs.

Forest McClintock vs Village of Lisbon, et al; trial to court, alley vacated, land reverts to adjoining property owners. Plaintiff's costs. Naomi Louise Taggart vs Harold William Taggart; hearing on temporary alimony and possession of real estate. Defendant in default for pleading or appearance. Plaintiff awarded exclusive possession of real estate and defendant ordered to pay plaintiff for her support and support of minor child during pendency \$30 a week.

George Rance vs Lorene Rance; defendant's motion to dismiss and quash service of summons overruled.

Frank G. McKarns vs Everett Grubbs Winder and Vincent C. Judge, county treasurer; case settled, costs paid. No record.

**New Cases**  
Vincent C. Judge, county treasurer, vs Donald E. Lohamer, et al; action to foreclose unredeemed delinquent land tax certificate in sum of \$232.97.

Cleveland Produce Credit Association vs Herbert and Roslyn Dubbs; action on cognovit note.

Ohio Farmers Insurance Co. and Carl Miller vs Theodore Gilbert, Weirton, W. Va.; action for money, \$278.00.

Roy W. Young, Lisbon R. D. 3, Atlantic Refining Co., Philadelphia action for money, \$10,000, for alleged negligence in removing electric gasoline pumps from premises formerly a filling station which he occupied, that sparks from electric wiring caused a fire which destroyed the building.

Colonial Finance Co. vs LeRoy Gibson; action on cognovit note.

Jean M. Curran vs Robert L. Curran, East Liverpool; action for divorce and alimony; extreme cruelty.

### Retires Naval Leader

PHILADELPHIA, May 2—Rear Admiral James L. Kauffman, a native of Mansfield, O., yesterday retired as commandant of the fourth naval district, ending 45 years of naval service.

The expression "true blue" originally meant a staunch Presbyterian, according to the Encyclopedia Britannica, because the Presbyterians had adopted the color blue as opposed to red, the royal color.

Fleckner maintained his enforcement division "is constantly seeking out places where commercialized vice and commercialized gambling may exist."

### Gets Life Sentence

WARREN, May 2—Steve Babcheck, 75, yesterday was sentenced to life imprisonment for the axe

murder of his wife, Katherine, 65, last February. He pleaded guilty to a first-degree murder trial before a three-judge court.

Man once had a third eyelid. If you look in the mirror, at the inner corners of your eyes, you will see a tiny fold, all that's left of the disappearing lid.
